

# Chaos!!

This past 2weeks has really been challenging! As I was still looking for a cheaper way out to complete my fees because my home country has stopped our method of payment, boom! school blocked me off everything as a result of non completion of fees. No access to aula and I've got my dissertation, CMI, portfolio and a resit. Honestly, I was panicking and thrown off balance but my resilience kept me on track.

I'm not out of it totally, but I keep pushing!!!
